Other Skills : SEO, Responsive Web Design, Component-Based Architecture, Unit Testing

Experience

MyYogaTeacher, Front-End Developer

Bangalore, India
April 2022 - Present

- Built scalable and reusable UI components using React.js, Redux, TypeScript, and Tailwind CSS in a micro front-end architecture to enhance modularity and maintainability.
- Boosted web performance and SEO by 25% through responsive design implementation, code splitting, and structured component optimization.
- Developed robust unit tests using Vitest and React Testing Library, increasing test coverage and reducing production bugs by over 30%.
- Delivered high-quality front-end solutions across 3 concurrent projects, ensuring on-time releases through agile practices and effective stakeholder collaboration.
- Integrated secure, high-performance RESTful APIs in coordination with cross-functional teams to deliver seamless user experiences.

MyYogaTeacher, UI Developer Intern

Bangalore, India
Feb 2022 - Mar 2022

- Built responsive and visually engaging landing pages using HTML, CSS, and JavaScript for marketing campaigns.
- Practiced cross-browser compatibility and implemented pixel-perfect UIs from Figma designs, enhancing design accuracy and consistency.
- Gained hands-on experience with agile workflows, version control (Git), and front-end best practices in a professional development environment.

Education

Bachelor of Technology

Acharya Institute of Technology

Bangalore, India
2016 - 2020

Projects

Movie App

[github.com/movies-app](https://github.com/prateek-singh/movies-app) 

- Built a movie browsing app with reusable components and efficient state management using Redux.
- Styled the UI with SCSS and CSS to ensure responsiveness and modern design.
- Technologies used: React.js, Redux, SCSS, CSS, HTML.
