Frontend Developer | React.js • TypeScript • Redux • Tailwind CSS

Frontend Developer with 3+ years of experience in building scalable, high-performance web applications using **React.js**, **TypeScript**, and modern JavaScript frameworks.

Experience

Frontend Developer, MyYogaTeacher – Bangalore Jan 2023 - Present

- Engineered responsive UI components using React, TypeScript, Redux, and Tailwind CSS, with hands-on involvement in micro front-end architecture to build modular and maintainable features.
- Led and delivered three parallel projects, demonstrating strong ownership, multitasking, and team leadership capabilities.
- Implemented comprehensive unit tests using Vitest and React Testing Library as part of a test-driven development approach, ensuring high code quality and maintainability.
- Enhanced API integration and caching, reducing page load time by 25%.
- Collaborated closely with design and backend teams to analyze technical requirements, enhance user experience, and integrate secure, high-performance APIs.
- Integrated error tracking and performance monitoring tools (Sentry, Lighthouse) to proactively identify and fix issues.
- Mentored junior developers and led code reviews to uphold best practices and code quality.

UI Developer, MyYogaTeacher – Bangalore April 2022 - Dec 2022

- Developed dynamic, responsive pages with React.js, CSS, and Tailwind CSS.
- Migrated features to functional components with hooks, reducing code complexity.
- Applied component-driven development practices, increasing reusability.

Projects

Movie App github.com/movies-app

- Created a movie browsing app using React.js and Redux for state management.
- Built reusable components to keep the code clean and consistent.
- Styled the app using SCSS and CSS for a responsive and modern look.

Todo List github.com/todo-list

- Built a to-do list application with full CRUD functionality (Create, Read, Update, Delete).
- Implemented local storage to retain data across sessions.
- Practiced DOM manipulation and built a clean, responsive UI with CSS.

Skills

Frameworks / Languages / Libraries: React.js, JavaScript, TypeScript, Redux, Tailwind CSS, HTML, CSS, Styled Components, SCSS, Vitest, React Testing Library
